Enter now to win the 2026 Green Schools Trophy for your school!

All Staffordshire schools are invited to showcase their conservation and environmental projects for a chance to win a micro-pond workshop and hold the trophy for a year.

We are looking for inspiring projects that contribute to the protection, conservation, or improvement of the local environment. This could be through cutting down on single-use plastics, practical conservation work, creating wildlife habitats, promoting energy-saving or waste

reduction/recycling, green transport schemes or any other original idea your school may come up with.

For more information on the Green Schools Trophy scheme, including examples of previous winners, visit our website:
